Time Management

PROJECTS

Dec 2025 — **Colombo Institute of Sales & Distribution**
Designed and prototyped a user-friendly learning platform for Colombo Institute.

Oct 2025 — **AI-Powered Tutoring Chatbot**
This project develops an AI-powered chatbot that provides personalized tutoring for A/L chemistry students in Sri Lanka. It helps simplify complex concepts, supports problem-solving, and improves exam preparation and performance.

Sep 2025 — **Institute of Analytics - Sri Lanka**
Designed and Prototyped a user-friendly website incorporating Sri Lankan cultural elements, with a focus on clear layout, usability, and responsive UI design.

June 2022 — **Library Management System(DISE)**
Desktop-based library management application providing easy access to digital tools and resources using cloud technologies.
